About Us

United Relocations (Thailand), established in 2008, is a trusted provider of professional international and domestic moving and mobility services. Leveraging a robust network of global affiliates through its partnerships with the **International Association of Movers (IAM)** and **Harmony Network**, the company has become a preferred choice for corporations, schools, private shippers, embassies, and international organizations. Its reputation is built on competitiveness, credibility, and exceptional personalized service.

United Relocations (Thailand) represents the values of strength, trust, diversity, ethics, reliability, and accountability. Our networks include over 2,000 partners in more than 170 countries, offering services in moving, forwarding, shipping, and related fields.

In 2011, the company expanded its offerings with the establishment of **United Pet Express**, a specialized division focused on international pet shipping services. This division ensures pets travel comfortably and safely during relocations.

United Relocations (Thailand) caters to various moving needs, including office relocations, local and domestic household moves, and international shipments by air or sea. The company is committed to delivering high-quality services in collaboration with its quality-assured global partners, ensuring that every move, regardless of size, is handled with care and adheres to the highest international standards.

Short and Long Term Storage

2,100 square meters & air-conditioned warehouses

Home Search / School Search

Personalized perfect home and educational environment for your family

Household Goods Move

Relocation of personal effects, furniture, and home appliances from origin residence to destination.

Typical client groups include corporate assignees, embassy staff, NGO personnel, and private individuals.

Scope usually covers pre-move survey, packing and inventorying, export/import handling where applicable, transportation, and delivery with basic unpacking.

Fragile or high-value items may require custom packing.

Office Move

Transfer of workstations, documents, IT equipment, and communal furniture between sites or floors.

Requires an asset list, labeling plan, and a schedule to reduce downtime, often executed outside business hours.

Sensitive media and records are packed separately with chain-of-custody notes. Building rules (lift bookings, loading bay slots) and security passes are coordinated in advance.

Specialty Move

Handling of items that need non-standard protection, equipment, or permits e.g., fine arts, pianos, vehicles.

For fine arts, we also handle condition reporting, museum-grade packing/crating, and climate/handling controls where required by the destination or origin, we coordinate the necessary export documentation and certificates before shipment.

Pet Move

Arrangement of safe transport for cats, dogs, and other companion animals in line with airline and veterinary regulations.

Typical steps include crate sizing, vet checks, vaccinations, microchip verification, export/import permits, and flight or ground transport bookings.

Animal welfare is prioritized via route planning, temperature considerations, and layover timing.

Final responsibilities—such as obtaining health certificates, breed restrictions checks, and quarantine compliance are confirmed with the owner and destination authorities.

Factory Move

Relocation of machinery, production lines, and ancillary infrastructure within or between facilities.

Planning covers site surveys, lift/rigging studies, utility isolation, and sequencing to minimize production disruption.

Machines may require decontamination, de-/re-commissioning by OEMs, and bolting/leveling at destination. Compliance with local safety standards and floor load limits is mandatory.

Very professional team. Excellent at informing me and my wife about our move, they told us when it would arrive, how long it might take through customs, how long to might take to get to our house, and the day and time of arrival. Through emails and phone calls their correspondence has been great.
