8 MAIN FACTORS THAT AFFECT THE CURRENT TRAVEL DEMAND AND DECISION MAKING PROCESS OF CONSUMERS

01 **PSYCHOLOGY**
I feel insecure to travel. It is unclear whether it is safe or worth it.

02 **PRICE DROP**
Flight deals and hotel deals all look attractive right now. Should I?

03 **FLEXIBILITY**
I can probably book a hotel, but not sure when to travel, would be great to decide it later with no charge.

04 **FUTURE CONCERN**
What if the situation can get worse in my country or in the destination I want to go later or if my income keeps dropping?

05 **ATTRACTION DISCOUNTS**
It looks like not only hotels discount, but travel attractions can be cheaper too.

06 **DESTINATION DECISION**
Should I change the destination plan after considering all the pros and cons?

07 **INSURANCE COVERAGE**
Can I find travel insurance or health insurance that can cover me with regards to COVID-19?

08 **COMMUNICATION NEED**
I have many concerns, but doesn't seem the hotels and airlines can attend my needs. Would be great if I can speak to them personally.

THE POST COVID-19 RECOVERY STEPS FOR HOTEL INDUSTRY IN THAILAND.

LOCAL

The domestic market/family travel might become active first, to an extent.

REGION

Neighbor countries (CN, KR, JP, SG, MY) will start visiting, as soon as COVID-19 is minimized.

INTL'

Long-haul markets will start planning again, maybe in advance.

NORMAL

Everything is back but not the same, there are changes in the market segments.

>> BUILD YOUR PLAN IN PHASES, AND ALLOCATE THE BUDGET ACCORDINGLY.

SOME IMPORTANT TOPICS TO PREPARE

01

BEHAVIOR

Many travelers have new concerns so they will question the hotels directly. And this might be something OTAs cannot accommodate.

02

FLEXIBLE

Hotels will offer flexibility in terms of cancellation policy or allow guests to change dates with no charge.

03

DINING

Hotels will offer various packages with dining options on site as the demand may rise for this sector.

04

SEARCH

The search marketing sphere will be more competitive, especially in the domestic market. CPC will increase.

05

PRICES

The competition on prices might become worse than before. Hotels will get more creative in bringing in new values.

OWNED MEDIA PREPARATION

REVIEW YOUR ACTIVITIES AND ADDRESS THESE QUESTIONS

- **What are the top 5 markets that visit the hotel website site in the last year?** Knowing this helps you prepare the content and offers that suite your guests.
- **Traffic by market/channel, compare year on year to find trends.** Knowing this helps you identify any potential markets.
- **Can you now see the drop and increase of traffic by market/channel?** You can then use the paid media campaign, social content and create offers that help you push growing markets as well as bring back lost traffic.
- **Can you identify the differences in the average room nights, market segments and types of travelers of direct bookings vs OTA bookings?** Knowing this will help you identify how OTAs help and how the website contributes and while you have separate strategies for each channel.
- **Do you see any recent changes to the market segments during right before and during COVID-19, do you know why?** COVID-19 will reshape the market segments, we may not know how it will change, but at least you can look for signals that might have come.
- **Review the old campaigns with your agency or your team, to see what worked, and what didn't: offers, creative, ad copy, landing page, etc.** Use this knowledge to build a better campaign.

REVIEW YOUR WEBSITE FOR BOTH EXPERIENCE AND SEO.

- **TECHNICAL REVIEW:**
 - Google Analytics set up properly? Search console set up and linked to GA?
 - FB pixel setup, Facebook insights report of your visitors?
 - Are there broken links, duplicated/unoptimized meta tags?
 - Can you optimize image size/weight, site loading speed, SEO friendly urls?
- **LANGUAGE:** ensure you have English, local language and language(s) of the top feeder markets.
- **CONTENT REVIEW:**
 - Add guests reviews to the website
 - Add new unique selling points and offers
 - Add new images and videos,
 - Can you shorten the long content while maintaining valuable keywords?
 - Can you add in more content to drive SEO such as blog posts?

While you do this, prioritize the pages that get more visits first.
- **EXPERIENCE:**
 - Can you do a survey on the website?
 - Do you think adding price comparison function will help you convert more?
 - Do you have different packages for different types of guests that aren't found on OTAs?
 - Do you have content that address the concerns of guests?
 - Is the website open for a one-on-one chat?

OTHER OWNED CONTENT CHANNELS (FB/IG/YouTube/Line)

- **CHANNELS:** Make sure you have Youtube, Facebook and Instagram for all audience, Line for Thai audience, Weibo for Chinese audience (optional).
- **FREQUENCY:** update your content as frequent as possible. Promote your hotel and your destination and update the useful content that a traveler might want/need to know.
- **FORMATS:** Video is the most engaging formats, there are apps that help you create videos from images and text and fun animations. You do not always have to invest big budget.
- **QUESTIONS:** Ask your audience question, use poll function, use infographics to capture their attention and engage with them.
- **PERSONAL COMMUNICATION CHANNEL:** Be available to respond to comments and enquiries as soon as possible.
- **GIVE BACK:** as people engage with your pages and they might help you spread the word around, it's important to push for this by giving back. It can be in a form of a voucher, a special promotion code, or a freebie.

MEDIA CAMPAIGN PREPARATION

Syndacast[®]

3 POPULAR PROGRAMMATIC MEDIA ACTIVITIES

DISPLAY & VIDEO

Prepare the keywords that you want to purchase traffic when people search for those terms.

SEARCH ENGINE MARKETING

Prepare the ad copies that you want to show up when your bid is enough to show on search engine results page, for those keywords.

SOCIAL ADVERTISING

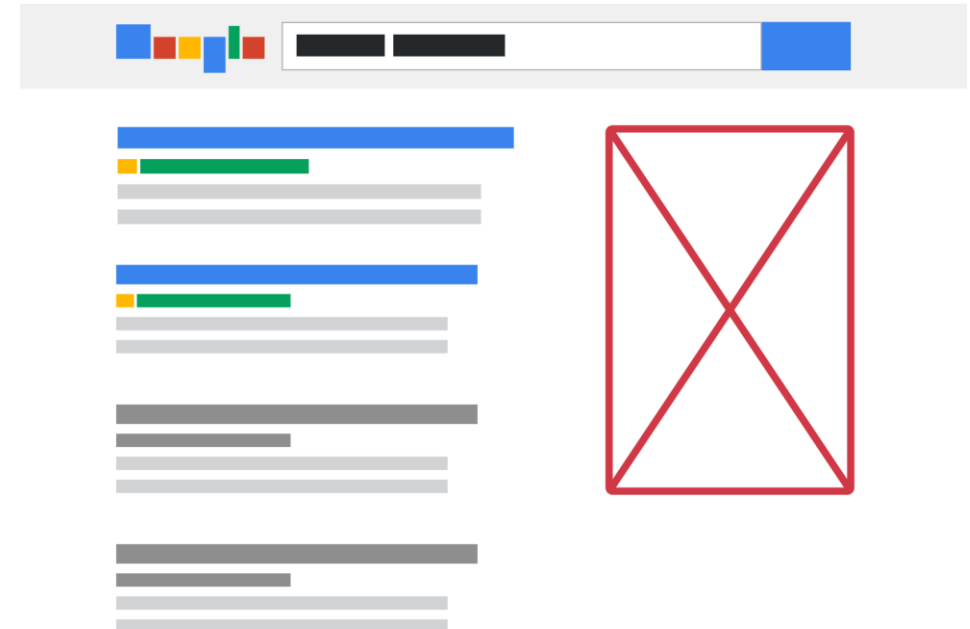

Provide landing page(s) for people to land on (usually a page on your website) so people can click on the ad and visit.

PAID SEARCH MARKETING/SEM/PPC

- **REVIEW:** past campaign performance, remove what didn't work and focus on what worked as well as what was missed.
- **QUALITY SCORE:** review the quality scores of the keywords and optimize the landing pages and ad copies to improve.
- **GRANULAR STRUCTURE:** separate campaign by strategy by market, and maximum 20 keywords per ad group.
- **MONITOR:** competitor analysis, search impression share, search terms report, quality score of keywords, ad CTR, and ROI.

DISPLAY MARKETING (BANNER AND VIDEO)

- **BE CLEAR:** what are we selling?
- **BE SUITABLE:** who are we selling to? Can we localize the language, can we use an image that fits? Is the timing right for this offer?
- **KEEP IT SIMPLE:** Benefits come first, features after. Clear call to action.
- **INSPIRE:** the key visual needs to inspire and create a positive feeling, people won't spend more than 5 seconds to dig deep into the detail. Avoid images with small details or too clustered.
- **CLEAR CALL TO ACTION:** Get offer today, Offer ends soon, Book now.

The screenshot shows a New York Times webpage with a banner for AirAsia. The banner is highlighted with a red box and contains Thai text: "อิมอร้อยกับเมนูเด็ด บนเครื่องบินของเรา" (Enjoy our special menu on our airplane). The banner features three cartoon characters and the AirAsia logo. Below the banner, the website content is visible, including a main article about coronavirus on a cruise ship and a sidebar with various news snippets.

SOCIAL ADS (FACEBOOK AND INSTAGRAM)

- **UNDERSTAND AND DIVERSIFY DIFFERENT AD TYPES:** awareness ads to maximize reach, post engagement ads for driving engagements, and click to message ads to engage with users/lead generation ads to generate leads.
- **ADDRESS THE CONCERN OF USERS:** Ad content should address the concerns of the audience or trigger what they have demand for.
- **GIVEAWAY CAMPAIGN:** to create something new, some benefits that people can participate.
- **PROMOTE POLLS/QUESTIONS:** Keep people engaged and understand them more.
