

CHRIS MCLOUGHLIN
PRESIDENT
AUSTRALIAN-THAI CHAMBER OF COMMERCE

Manager, Manufacturing Excellence
NS BlueScope Asia

Chris McLoughlin came to Thailand and was running the BlueScope Lysaght business and has more recently moved into a regional role.

Chris has been a director with AustCham Thailand for the past three years and was recently elected to the position of President. He has been actively involved in progressing the Chamber / Embassy strategic relationship, developing an AustCham building and construction sub-committee and customs and manufacturing areas of focus.

Prior to this Chris was based in the Pacific Islands and heavily involved in both the Fiji Australian Business Council (FABC) and the Fiji New Zealand Business Council (FNZBC).

Through this work he became an industry representative working with the Fiji Ministry of Trade to review the suitability of industry standards and how they are enforced. This presented great opportunity for a number of Australian businesses including BlueScope at which point he gained a real insight into the benefits of the Australian public and private sectors working together and the contribution that could be made through these forums in foreign territories.
